

Department of Energy
National Nuclear Security Administration
Washington, DC 20585

October 17, 2008

OFFICE OF THE ADMINISTRATOR

MEMORANDUM FOR: INGRID KOLB
DIRECTOR, OFFICE OF MANAGEMENT

FROM: THOMAS P. D'AGOSTINO
ADMINISTRATOR 

SUBJECT: NNSA Ten-Year Site Plans (TYSPs)

This is to inform you that the existing National Nuclear Security Administration's (NNSA) Fiscal Year (FY) 2009-2018 Ten-Year Site Plans (TYSPs) will remain in place for the upcoming year. The NNSA's FY 2009-2018 TYSPs align with program planning guidance for Complex Transformation, meet DOE Order 430.1B, *Real Property Asset Management* reporting requirements, and are releasable to the public under the Freedom of Information Act.

As you know, this year is unique in that the Department will issue a series of Records of Decision (RODs) that will chart the future configuration of the Nuclear Weapons Complex. Given the timing expected for the issuance of the RODs, there would not be adequate time to develop information in support of those decisions for new (e.g., FY 2010-2019) TYSPs. We will continue to support the FY 2011-2015 Programming and Budgeting cycle with data required to make informed decisions.

Please contact Robert Dino Herrera, Director, Office of Infrastructure and Facilities Management, NA-52 at (202) 586-5366 should you have any questions regarding this approach.
