Meeting

Fuel Cycle Safety, Safeguards, and Environmental Review

Division Activities Include:

- Issue licenses for fuel cycle facilities.
- Complete environmental reviews for licensing of fuel cycle facilities, independent spent fuel storage facilities, decommissioning sites and uranium mills.
- Foster interactions between NRC licensees and the IAEA as needed.
- Manage the day-to-day operations of the NMMSS database to meet NRC needs.

Tips for Success This Week

- Take advantage of the sessions.
- Raise and discuss the issues of concern to you.
- Dialogue with NRC staff, NMMSS staff and your industry counterparts.
- Share your knowledge and assist your counterparts with their issues.
