

**Part III - Section J**  
**Appendix G**  
**List of Applicable Directives and NNSA Policy Letters**

In addition to the list of applicable directives referenced below, the contractor shall also comply with supplementary directives (e.g., manuals), which are invoked by a Contractor Requirements Document (CRD) attached to a directive referenced below. This List excludes directives that have been granted an exemption from the CRD in whole or in part. For those Directives whereby the Contractor has been granted an exemption from the CRD, the Contractor shall comply only with the Operating Requirements identified in Appendix G-1. Directives identified in Appendix G-1 are for reference purposes only.

Bolded directives have been reviewed by the Joint Operating Requirements Review Board (JORRB).

DOE M 471.3-1, Admin Chg. 1 dated 1/13/11	4/09/03	<b>Manual for Identifying and Protecting Official Use Only Information</b>

<sup>6</sup> a. Sandia shall repackage all nuclear materials that fall under the requirements of DOE M 441.1-1 remaining on-site after FY 2015 that do not have an identified disposition path. These materials will need to be packaged before the end of FY 2014 or as soon as appropriate packaging is identified and approval is obtained through the Sandia Site Office (SSO). Sandia will determine the appropriate packaging and SSO will concur/approve. Packaging designs will be approved by a Site Office and reviewed by the NNSA/Albuquerque Complex Packaging Certification Division prior to use.

b. New Material that Sandia acquires from various programs and projects that is subject to DOE M 441.1-1, must have an approved container for storage, or Sandia must have a plan (approved by SSO) in place to develop a container to comply with the packaging and storage requirements, when it comes on site.

<sup>7</sup> Full implementation will occur in accordance with an approved Implementation Plan, which will also address conflicts with other directives. The plan is due to SSO by 2/24/2012.

NNSA SD M 452.3-1	12/10/09	Defense Programs Business Requirements and Processes Manual <sup>12</sup>

<sup>8</sup> Full implementation will occur in accordance with an approved Implementation Plan, due to SSO by 2/24/2012.

<sup>9</sup> DOE O 458.1, dated 2/11/11, cancels DOE O 5400.5 Chg 2, dated 1-7-93, except for Chapter III, *Derived Concentration Guidelines*, and Figure IV-1, *Surface Contamination Guidelines*.

<sup>10</sup> Chapters within 56XB, *Nuclear Weapon Development and Production (D&P) Manual*, will stay in effect until specific *Nuclear Weapon D&P Manual* chapters and associated Technical Business Practices are incrementally and formally replaced using the Requirements Modernization and Integration (RMI) process, within the RMI Explorer, as described in contract clause H-33(e) and NA SD M 452.3-1.

<sup>11</sup> NAP 70.4, Chg 1, dated 07/2/2011, replaced DOE M 470.4-4A, except for the classified Technical Surveillance Countermeasures Annex in DOE M 470.4-4A.

<sup>12</sup> Changes to the NNSA Supplemental Directive NA SD M 452.3-1, *Defense Programs Business Requirements and Processes Manual*, and the RMI derived requirements, are processed as described in contract clause H-33(e).

## **Part III - Section J**

### **Appendix G-1**

### **Operating Requirements**

The Contractor shall comply with the Operating Requirements listed herein. **The identified directives are listed for reference purposes only, i.e., only those provisions set forth herein constitute binding Operating Requirements.** The NNSA Administrator has granted exemptions from some of the directives referenced herein while other directives have an alternative applicable authority for exemption. The applicable authority for exemption for each directive is cited in their respective endnotes.

The contractor is responsible for flowing down requirements in Appendix G-1 and other contract requirements, when applicable, to ensure compliance with the terms and conditions of the prime contract.

The paragraph numbering under each heading below corresponds to the Contractor Requirements Document (CRD) in the referenced directive for ease of traceability.

DOE O 200.1A, **Information Technology Management**, Effective Date: 12/23/2008 <sup>1</sup>

1. INFORMATION TECHNOLOGY STRATEGIC PLANNING. Maintain a strategic plan that coordinates IT planning and investment decisions and links to the Departmental strategic plan.
2. CAPITAL PLANNING AND INVESTMENT CONTROL. Develop, implement, and maintain a Capital Planning and Investment Control (CPIC) process that supports Department-wide CPIC efforts.
3. ENTERPRISE ARCHITECTURE. Maintain an Enterprise Architecture for the life-cycle management of information resources and related IT investments funded by or operated for DOE.
4. HARDWARE AND SOFTWARE ACQUISITION
  - b. Implement a Software Quality Assurance (SQA) program.
5. IT OPERATIONS AND USE. Ensure that information published to Federal service-to-citizens public websites are accessible to the public and individuals with disabilities.

DOE O 243.2, **Vital Records**, Effective Date: 02/02/2006 <sup>1</sup>

1. REQUIREMENTS
  - a. A DOE contractor must identify and preserve vital records in support of the Department's emergency preparedness responsibilities (as outlined in Executive Order (E.O.) 12656, "Assignment of Emergency Preparedness Responsibilities").
  - c. A contractor must implement vital records programs that include the following:

- (1) Procedures for identifying, protecting, controlling access to, and ensuring availability of records and information systems that-
  - (a) Specify how the organization will operate in case of an emergency and how it will support civil defense associated with disasters and attacks;
  - (b) Are needed for the continued operations of the organization and mission delivery of the organization both during and after an emergency or disaster; and
  - (c) Are essential to the preservation of the legal rights and interests of the Government and its citizens.
- (2) Procedures for accessing records required to support critical activities the contractor performs when DOE operates under abnormal business conditions and/or at a location other than the normal place of business.
- (3) Vital records inventory plans that include-
  - (a) Requirements for proper labeling and handling;
  - (b) Security precautions;
  - (c) Frequency of updates;
  - (d) Media, hardware, software, and supporting service needs; and
  - (e) Provisions for access from remote locations.
- (4) An inventory system that identifies hardcopy and electronic records by-
  - (a) Series or system title,
  - (b) Description,
  - (c) Type,
  - (d) Name of the responsible office and individual,
  - (e) Physical location of copies, and
  - (f) Date of latest revision.
- (5) Provisions for protecting against or assessing damage to or loss of records and recovering records affected by an emergency or disaster must include:
  - (a) copies of the vital records and the inventory maintained at separate locations to ensure immediate access in any situation;
  - (b) records maintained in media feasible for accessing and reviewing information during or immediately following an emergency;
  - (c) evaluation of electronic records based on-
    1. Volume,
    2. Frequency of updates required,
    3. Availability of electricity, computers, software and support services needed to permit access, and
    4. Potential for accessing electronic records from remote locations via virtual private networks or compact disks.
- (6) A process for selecting storage/backup protection methods that must include:
  - (a) Evaluation of the effectiveness,
  - (b) Cost,
  - (c) Degree of risk or potential loss,
  - (d) Physical susceptibility to destruction,

- (e) Need for special environmental conditions for transporting, storing, and updating records.
- (f) Ability to retrieve records quickly during an emergency or disaster.
- (7) An ongoing appraisal of vital records and complete review at least annually to ensure that changing conditions are addressed and records are up-to-date and immediately accessible.
- (8) A plan must be developed and maintained to recover records that are damaged in an emergency or disaster, regardless of media. This plan must include the priorities for restoring or recovering multiple damaged systems and the options for recovery and replacement. This plan must also include a resource list of local disaster recovery firms that can assist in restoration, along with employee contact lists and vital records inventories, must be maintained at multiple off-site locations to facilitate their use.

## 2. STORAGE CONSIDERATIONS

- a. A contractor must establish locations where vital records will be stored, such as alternate emergency operations centers (EOCs), command centers, and relocation sites that will provide adequate protection and accessibility and meet the improved fire protection risk level required by the CRD for DOE O 420.1B, *Facility Safety*, dated 12-22-05. Before classified documents can be stored at these locations, the contractor must obtain approval in accordance with the CRD for DOE O 470.4, *Safeguards and Security Program*, dated 8-26-05.
  - b. Manner of Storage. Contractor records will be stored in a manner that ensures ease of access, retrieval, and control. Storage systems must allow for access per the prioritized schedule. Classified and unclassified records must be handled in accordance with the CRD for DOE O 471.1A, Identification and Protection of Unclassified Controlled Nuclear Information, dated 6-30-00, and the CRD for DOE O 471.3, Identifying and Protecting Official Use Only Information, dated 4-9-03.
3. DISPOSITION OF RECORDS. Original vital records must be maintained for the period of time specified in the DOE records disposition schedules. The duplicate copy of vital records that is stored in the separate location should be deleted when obsolete or superseded and replaced with the updated revision.

DOE O 436.1, **Departmental Sustainability**, Effective Date: 05/02/2011<sup>3</sup>

- 2. Submit an annual Site Sustainability Plan (SSP) that is integrated with Environmental Management System (EMS) and site operations.

DOE O 483.1, **DOE Cooperative Research and Development Agreements**, Effective Date: 01/12/2001<sup>1</sup>

- 1. Establish and maintain a management system, including policy and procedures, that ensures Cooperative Research and Development Agreement (CRADA) activities

requirements of DOE M 483.1-1, COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENT MANUAL are satisfied.

8. Request DOE Approval for construction at a DOE site when that construction exceeds the general plant project threshold. Approval by the cognizant Secretarial Officer and the Chief Financial Officer is required prior to initiation of work which exceeds the threshold.

**DOE O 484.1, Reimbursable Work for the Department of Homeland Security**, Effective Date: 12/23/2008 <sup>1</sup>

Establish, maintain and implement, through the contractor's management system, the assurance that all requirements applicable to reimbursable work for DHS are satisfied to include ensuring:

- DHS-funded work at a DOE national laboratory or site will be performed on an equal basis to other missions at the laboratory or site and not on a non-interference basis with other missions of such laboratory or site; and
- No added administrative or personnel charges in excess of those paid by DOE will be charged for DHS work

**DOE O 522.1, Pricing of Departmental Materials and Services**, Effective Date: 11/03/2004 <sup>1</sup>

1. When the site/facility management contractor conducts activities of providing non-DOE entities materials or services, which the Department is authorized by law to provide, the site/facility management contractor must charge the non-DOE entity the full cost of providing the materials or services. Full cost includes all site/facility management contractor direct costs incurred in performing work, all allocable costs incurred by the site/facility management contractor at any DOE/NNSA facility, and a Federal administrative charge of 3 percent of these costs. In no case will any depreciation or imputed interest charges be imposed on the non-DOE entity requesting the materials or services.
2. For cosponsored work, Cooperative Research and Development Agreements (CRADAs), and other technology transfer mechanisms, the site/facilities management contractor will assess a Federal administrative charge of 3 percent on all funds contributed by the sponsor, regardless of the level of Departmental participation in funding the work effort. In-kind contributions will not be subject to the Federal administrative charge.
3. The site/facility management contractor may provide an exception to the requirement to assess the 3 percent Federal administrative charge for reimbursable work performed for non-DOE entities as follows:
  - a. Funds-in agreements with domestic entities: small business concerns, institutions of higher education, nonprofit entities, and State and local governments.
  - b. Based on the current listing of blanket pricing exceptions provided by DOE to the contractor for work covering research, development, testing, evaluation, training, and exercises directly related to specified activities listed. If any of the blanket exceptions are canceled, DOE will provide the contractor with appropriate notification.
5. The following activities may become part of the contractor's responsibilities. These activities require special pricing consideration and, as applicable, DOE will provide the contractor with additional information for pricing the activity.
  - a. Information Dissemination Materials. DOE must comply with Office of Management and Budget (OMB) Circular A-130, Management of Federal Information Resources. The contractor will assist DOE in complying with

Circular A-130. Circular A-130 requires DOE to set charges at a level sufficient to recover the cost of dissemination but no higher. Charges must exclude the cost of the original collection and processing of the information. Should an exception to this policy be warranted, DOE will provide additional guidance.

- b. Byproduct Material. The contractor shall establish prices and charges for byproduct material sold, pursuant to Title 42 United States Code (U.S.C.) 2111 and 2112, at either the full cost recovery price or the commercial price, whichever is higher. Lower prices may be established if it is determined that such prices and charges will provide reasonable compensation to the Government, will not discourage the use of or the development of sources of supply independent of DOE, and will encourage research and development. Before establishing lower prices, the contractor shall obtain the approval of DOE.
- c. Other Materials and Services. The contractor shall establish prices and charges for materials and services sold, pursuant to 42 U.S.C. 2201(m), at either the full cost recovery price or the commercial price, whichever is higher. Lower prices and charges may be established if it is determined that such prices and charges would still provide reasonable compensation to the Government and would not discourage the development of supply sources independent of DOE. Before establishing lower prices, the contractor shall obtain the approval of DOE.
- d. Foreign Research Reactor Spent Nuclear Fuel Program. DOE will provide the contractor guidance on charging for this activity.
- e. Access Permits. The contractor shall not charge for access permits issued with the exception of those access permits which are charged in accordance with Title 10 Code of Federal Regulations (CFR) 725.
- f. Access Authorizations. The contractor shall not assess charges for access authorizations when authorization-
  - (1) is transferred from a study agreement to an access permit held by the same organization;
  - (2) is for an employee or staff member of an accredited, nonprofit educational institution having, at a minimum, a 2-year program of college level studies, and the work is related to the civilian application of nuclear energy;
  - (3) will not be considered one for which DOE has been paid, when the individual transfers to another organization; and
  - (4) is granted to obtain full and free competition.
- g. Use Permits. The contractor shall not assess a charge for preparing a permit which authorizes the use of DOE facilities or services. Charges for use of the facilities or services will be calculated separately.
- h. Assistance for the Protection of Health and Safety in the Event of Radiological Incidents. The contractor shall request guidance from DOE on charging for this activity.
- i. Museums and Exhibits. Unless there is specific authority to collect admission fees, the contractor will not charge visitors to DOE museums and exhibits for admission.

- j. Commercial Property Rental. DOE will provide the contractor guidance on charging for this activity.
- k. Use of Facilities. DOE will provide the contractor guidance on charging for this activity.
- l. Office of Science User Facilities. The contractor may make the Office of Science User Facilities available for research by a broad community of qualified users on the basis of programmatic interest, feasibility, capability of the experimental group, and availability of the resources required. The contractor shall adhere to the following regarding charging users for use of the facilities.
  - (1) Use of user facilities will be authorized at no charge for research which is of DOE programmatic interest and which is approved by laboratory management, usually with the advice of program advisory committees. Use free of charge will apply to experiments approved for conduct during periods in which the facility operates in normal mode for its primary purpose. The facility manager will determine which requests meet those criteria and report periodically to the appropriate DOE program manager.
  - (2) When facilities are made available for proprietary research, the user will be charged a fee that realizes full cost recovery.
  - (3) When facilities are operated for special circumstances, such as running the facility outside the normal operating mode or schedule, the user will be charged the incremental costs.
- m. Hazardous Materials Spill Center. The contractor will charge users of the facility only for direct and indirect costs for their experiments.
  - (1) Invoices for materials and services will be prepared and issued promptly in accordance with the terms of the reimbursable work contracts or agreements.
  - (2) Work for others issues are covered in the work for others clause of this contract.
  - (3) Collections are covered under the payments and advances clause of this contract.

- End of Appendix -

Endnotes:

- <sup>1</sup> Thomas P.
