Subject: Item #42 Cultural Sites

We have the map with the historical sites on it, but it has some sensitivity. I don't think it should be published in the SEIS.

If I remember right the question was "are any of the six sites listed in the SEIS going to be impacted by the PDC projects?" The answer is no. The closest site is a historic scatter site and it is at least 500 feet across a road from any PDC activities.

If you really need the map I can check with the Archeologists about sensitivity issues.
