Subject: Vacuum Salt Distillation Environmental Impact

Please note, I have re-issued the document SRNS-N2000-2011-00039, "Environmental Impact of Vacuum Distillation". I could not obtain STI release without removal of the "Pre-Decisional" heading, Allen Gunter (DOS-SR Programs) agreed the heading could be removed from the document. The document had not been sent to Records, so I re-issued with no other changes. I will resubmit to STI.

Thanks
