Subject: SPD SEIS Review Meeting - Principle Revisions and Commitments

We compiled our notes from the SPD SEIS review meetings last week. The attached file contains a summary of the principle revisions and commitments for each section of the SEIS. We did not try to capture every change, just the major revisions and the commitments to provide data or analyses.

Please review and see if this matches your notes/memory. The next steps are to track the commitments to completion (we'll generate a new action item table), and determine impacts to the project schedule. We'll work on both of these over the next couple days.

John DiMarzio | SAIC

Senior Environmental Scientist | Project Manager

Energy, Environment & Infrastructure Solutions
