Subject: Item #42 Cultural Sites

We have the map with the historical sites on it, but it as some sensitivity. I don't think it should be published in the SEIS.

If I remember right the question was "are any of the six sites listed in the SEIS going to impacted by the PDC projects?"
The answer is no. The closest site is a historic scatter site and it is at least 500 feet across a road from any PDC activities.

If you really need the map I can check with the Archeologists about sensitivity issues.
