John

Requested exposure data. Let me know if you have any questions.

[REDACTED]

Thanks.

Barry, This is the Sitewide information that you are looking for.

	2003	2004	2005	2006	2007 (YTD)	
Collective Exposure (rem)		258.6	201.9	122.5	107.2	53
Maximum Individual Exposure (rem)		1.808	0.974	0.687	0.698	0.545
Annual Average Worker Dose (rem)						
includes workers w/0 mrem		30.2	26	16.1	14.2	Can not provide 2007 data until REMs report is run in March, 08.
excludes workers w/0 mrem as the average		75	68	51.9	44.9

Mike

EIS stands for environmental impact statement, which is a form of NEPA (National Environmental Policy Act) documentation. Can you point me in right direction as far as obtaining the requested rad

exposure data?

Subject EIS Data Call

Mike

I am in the process of responding to an EIS data call and one of the inquiries received is as follows:

"Site worker radiological exposure data for the most recent 5 years. Please provide data in terms of annual average worker dose (mrem) and annual total worker dose (person-rem)". The EIS contractor is looking at the following areas: SRS (sitewide), K-Area (KAMS and Immobilization Facility), H-Area (H-Canyon), F-Area (MOX FFF), and S-Area (DWPF). Can you help me out here or refer me to the appropriate person?

Thanks.

C. Barry Shedrow
