

**Standardized FFACO Outline
Tonopah Test Range (TTR)
Corrective Action Unit (CAU)
Post-Closure Report
Revision 1
August 2013**

Table of Contents

List of Acronyms/Abbreviations

Executive Summary

Summarize the activities conducted during the report period

1.0 Introduction

1.1 Scope and Objectives

Identify CAU and Corrective Action Site (CAS) names and numbers. Briefly describe the general scope of the inspections and maintenance work, if applicable. Describe the contents of this report.

2.0 Inspection Results

Briefly describe when inspections were conducted and list contents of each Appendix.

2.1 CAU 400: Bomblet Pit and Five Pionts Landfill (TTR)

List CASs inspected at the CAU. Describe the observations made during the first and second semiannual inspections. Describe any maintenance done during the calendar year and/or repairs that are needed at the site. Include any conclusions and recommendations concerning the CAU and CAS(s), and post-closure inspection scope, as applicable.

2.2 CAU 407: Roller Coaster RadSafe Area (TTR)

List CASs inspected at the CAU. Describe the observations made during the first and second semiannual inspections. Describe any maintenance done during the calendar year and/or repairs that are needed at the site. Include any conclusions and recommendations concerning the CAU and CAS(s), and post-closure inspection scope, as applicable.

2.3 CAU 424: Area 3 Landfill Complex (TTR)

List CASs inspected at the CAU. Describe the observations made during the first and second semiannual inspections. Describe any maintenance done during the calendar year and/or repairs that are needed at the site. Include any conclusions and recommendations concerning the CAU and CAS(s), and post-closure inspection scope, as applicable.

2.4 CAU 453: Area 9 UXO Landfill

List CASs inspected at the CAU. Describe the observations made during the first and second semiannual inspections. Describe any maintenance done during the calendar year and/or repairs that are needed at the site. Include any conclusions and recommendations concerning the CAU and CAS(s), and post-closure inspection scope, as applicable.

2.5 CAU 487: Thunderwell Site (TTR)

List CASs inspected at the CAU. Describe the observations made during the first and second semiannual inspections. Describe any maintenance done during the calendar year and/or repairs that are needed at the site. Include any conclusions and recommendations concerning the CAU and CAS(s), and post-closure inspection scope, as applicable.

3.0 Summary

3.1 CAU 400: Bomblet Pit and Five Points Landfill (TTR)

3.2 CAU 407: Roller Coaster RadSafe Area (TTR)

3.3 CAU 424: Area 3 Landfill Complexes (TTR)

3.4 CAU 453: Area 9 UXO Landfill (TTR)

3.5 CAU 487: Thunderwell Site (TTR)

For each CAU listed above, briefly summarize the site inspection results, subsidence surveys (if applicable) soil moisture monitoring (if applicable), and vegetation survey (if applicable) and the performance of any cover or any other engineered structures, and any repairs or maintenance that was performed. List any recommendations such as frequency of inspections and any repairs or maintenance or repairs that may need to be performed in the coming reporting period.
