

Welcome to the 2011 NMMSS Annual Users Conference

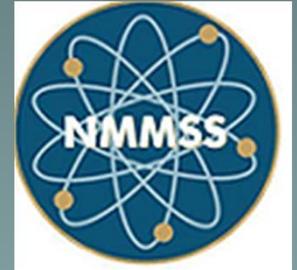

Marissa Bailey
Office of Nuclear Material Safety
and Safeguards

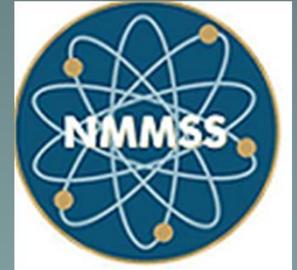

NMMSS Conference

- Present up-to-date information
- Discuss regulatory drivers, requirements, & impacts
- Provide training and orientation
- Share knowledge
- Engage on ideas and solutions
- Welcome new reporters
- Visit with representatives of other plants

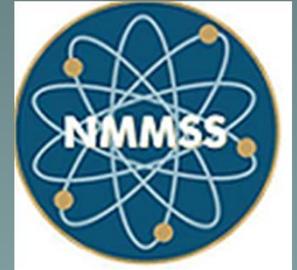

Some Consistent Themes

- Importance of the data you provide
- Your input is key to anticipating changes and refining NMMSS
- Information Technology challenges
- Addressing / planning for change

This meeting:

- Gain a better insight:
 - on what is NMMSS
 - why it functions as it does
 - how NMMSS supports the nation's needs
- Hear various views and thoughts
- Hopefully see some of your past views and thoughts implemented

Help make this a Productive Conference

- Participate and Share your input
 - How can NMMSS serve the Nation better today?
 - How can NMMSS serve you better?
 - What future change should we be planning to address?

My perspective as a newly enlightened person

- Surprise with NMMSS Role in implementing Agreements & Treaties
- The extent of data in NMMSS
- Dedication of the experts in this room
- How little praise you and NMMSS receive
- Appreciate good working relationships (Industry, NRC, DOE/NNSA)
- Thanks for your involvement and Dedication
