

Draft Solicitation DE-SOL-0008418 for the Nevada National Security Site Management and Operating Contract Competition

The National Nuclear Security Administration (NNSA) has posted the following documents to the Nevada National Security Site (NNSS) Management and Operating (M&O) Contract Competition website, FedBizOpps, and FedConnect:

- DRAFT Section L Instructions, Conditions, and Notices to Offerors or Respondents
- DRAFT Section M Evaluation Factors for Award
- DRAFT DE-SOL-0008418 Appendix A NNSS Statement of Work
- DRAFT Section L Attachment F - Past Performance Cover Letter and Questionnaire
- DRAFT Section L Attachment G - Management Team Cost Sheet

NNSA is seeking input from prospective Offerors on these documents, particularly Solicitation Sections L and M and Section L Attachment F - Past Performance Cover Letter and Questionnaire. Please note that there are two different options for the Past Performance criterion in Section M that NNSA is considering. Only one of Past Performance criterion will be in the final Solicitation. **NNSA would also like to draw your attention to the current proposed fee cap and fee structure of Contract Line Item Numbers (CLINs) 0001 Management and Operation of NNSS and 0002 Strategic Partnership Program.**

All comments, questions, suggestions, feedback, etc. for the documents listed above shall be submitted to SEB5@mnsa.doe.gov by 11:00 am Eastern Daylight Time (EDT), September 21, 2015. Responses shall be no longer than three pages.
