**The Petroglyphs of Upper Fortymile Canyon,
Nevada Test Site, Nye County, Nevada**

by

Harold Drollinger, Colleen M. Beck, and Robert C. Jones

ABSTRACT

This technical report presents a study of petroglyphs in the upper Fortymile Canyon of the Nevada Test Site in southern Nevada. The fieldwork, conducted by the Desert Research Institute for the U.S. Department of Energy, Nevada Operations Office, included a total of 21 days during the summer of 1977.

The study area is located in the upper Fortymile Canyon, approximately 10 miles north of the Nevada Test Site. The fieldwork was conducted by the Desert Research Institute for the U.S. Department of Energy, Nevada Operations Office, during the summer of 1977. The study area is located in the upper Fortymile Canyon, approximately 10 miles north of the Nevada Test Site. The fieldwork was conducted by the Desert Research Institute for the U.S. Department of Energy, Nevada Operations Office, during the summer of 1977.
