

Polychlorinated Biphenyls (PCBs)

You are here: [EPA Home](#) [Wastes](#) [Polychlorinated Biphenyls \(PCBs\)](#) [PCB Waste Handlers](#) [Commercially Permitted Disposers](#)

Commercially Permitted PCB Disposal Companies

Please note: The companies listed on this page (except for scrap metal recovery ovens) have applied for and received a permit or approval from EPA to perform their disposal activities. Other companies may be performing similar activities by rule (no permit or approval is needed). An example of such a company is a scrap metal recovery oven. Your local yellow pages or state environmental agency may have a more in depth listing. [EPA's Where You Live](#) web page links to many state environmental agencies.

As of July 2010
