WWW NDEP

The Nevada Division of Environmental Protection, Bureau of Waste Management oversees the Permitting of Solid Waste Landfills and other waste management facilities within the state of Nevada. The counties of Clark and Washoe administer permitting programs for landfills and waste management facilities within their jurisdiction.

At right is an interactive Google map of most Nevada permitted landfills; For specific detailed information for each facility see the links in the tables below.

(NRS 444.560) "Class I site" means a disposal site which:

1. Is comprised of at least one municipal solid waste landfill unit including all contiguous land and structures, other appurtenances and improvements on the land used for the disposal of solid waste; and
2. Is not a Class II or Class III site.

(NRS 444.560) "Class II site" means a disposal site:

1. Which is comprised of at least one municipal solid waste landfill unit;
2. Which accepts less than 20 tons of solid waste per day on an annual average;
3. For which there is no evidence of contamination of groundwater originating from the site;
4. Which serves a community that has no other practicable alternatives for waste management; and
5. Which is located in an area which annually receives no more than 25 inches of precipitation.

(NRS 444.560) "Class III site" means a disposal site which accepts only industrial solid waste.
