Small Business Programs

Securing the Nation's Future...

One Small Business At A Time

NNSA is responsible for the management and security of the nation's nuclear weapons, nuclear nonproliferation, and naval reactor programs. It also responds to nuclear and radiological emergencies in the United States and abroad.

Additionally, NNSA federal agents provide safe and secure transportation of nuclear weapons and components and special nuclear materials along with other missions supporting the national security.

MESSAGE FROM THE ADMINISTRATOR.....

As the Administrator of the NNSA, I am committed to the small business programs and expect my entire organization to actively and enthusiastically support these programs and initiatives.

Small businesses are the productive engines that drive our national economy creating the majority of new jobs providing opportunities for advancement, personal enrichment, and financial stability for millions of Americans.

Therefore, I have challenged each program, project office, and contractor organization under my control to develop, test, and share new and productive approaches to increase opportunities for the entire small business community — expanding the capability and capacity of this important resource base that supports our critical global mission.

Thomas P. D'Agostino
National Nuclear Security Administration

SMALL BUSINESS VISION: Provide NNSA's programs with only the highest quality, technically superior and competitively-priced small business suppliers.

SMALL BUSINESS PROGRAM GOALS

Goal #1: Create and implement the government's best enterprise-wide small business strategy and program.

Goal #2: Maximize procurement opportunities for small businesses throughout the entire NNSA enterprise, including NNSA's Management and Operating (M&O) Contracting Offices.

Goal #3: Provide integrated training, innovative methodologies, and responsive systems through which NNSA procurements will optimize the inclusion of high-quality small businesses while promoting a positive impact on timelines and mission accomplishment.

Goal #4: Provide internal NNSA customers with a diverse, high-quality, technically capable, and competitively-priced small business supplier base.

GETTING STARTED! There are many opportunities within the NNSA enterprise for small business participation. After all, we buy a wide variety of goods and services. First, learn about our organization and environment by reviewing NNSA programs, newsletters, and documents on our website at www.nnsa.doe.gov. Also, take a look at our small business website at: www.nnsa.energy.gov/aboutus/ouoperations/apm/smallbusiness.

Check out NNSA and DOE Small Business Opportunity forecasts:

- **NNSA Business Forecast:**
<https://hqinc.doe.gov/support/nnsaforecast.nsf>
- **DOE Business Forecast:**
<http://hqinc.doe.gov/forecast>

Participate in outreach activities such as:

- NNSA Small Business Opportunity Sessions
- NNSA Teaming Workshops

KNOW OUR PEOPLE!

Study the Small Business Program Managers (SBPMs) directory at energy.gov/diversity/downloads/small-business-program-managers-sbpm-directory and establish relationships with the SBPMs. To assist you through the process, we have representatives who are able to answer questions regarding how to best prepare your company for our procurement process. They can be accessed by calling the NNSA Small Business hotline number: (202) 586-5007.

IS YOUR SBA PROFILE CURRENT? Go to:

The Central Contractor Register (CCR): <http://www.ccr.gov>
Online Representations and Certifications Application: <https://orca.bpn.gov>

Confirm:

- Contact information—name, address and phone number
- Certifications, such as 8(a), SDB, WOSB, etc.
- NAICS Codes

For specific information on doing business with the NNSA and the Department, including: public announcements on initiated acquisitions; registering to receive a solicitation and submit proposals for specific transactions; and obtaining information and guidance on acquisition and financial assistance award processes; visit the Department's e-Center (<http://e-center.doe.gov>), the Federal Business Opportunities website (www.fbo.gov), and Fedconnect (www.fedconnect.net).

SMALL BUSINESS PROGRAM TOOLBOX

Tool #1: NNSA Small Business Opportunity Sessions. Weekly, the NNSA Headquarters' Small Business Program Manager, and other invited parties set aside time to meet with small businesses that may wish to supply products or services of interest to the NNSA. Please call (202) 586-5007 to schedule an appointment.

Tool #2: NNSA Small Business Teaming Workshop Program. To increase small business participation for larger procurements, the NNSA makes extensive use of Small Business Teaming Workshops. These workshops are tools for specific procurement opportunities within the NNSA with scopes of work and contract values large enough to warrant small business teaming solutions.

Tool #3: NNSA Small Business Independent Market Research Program. Researching, identifying, and evaluating small business suppliers that are high quality, top performing, and competitively priced, are essential for expanding small business contracting. Once a program requirement is identified, an independent research action is activated to locate top-of-the-line small businesses with capabilities in specific performance areas.

Tool #4: NNSA Small Business Sourcing System. NNSA has implemented a system housing small businesses that have participated in our Opportunity Sessions, and have completed the NNSA Capabilities Questionnaire. New requirements are matched against these suppliers first.
