Attachment 1 – Company Information

## **Attachment 1 Company Information**

**Company/organization name:** CGI Federal Inc. (CGI)

**Business size:** Large

**Type of organization:** With over 69,000 employees in 40+ countries, CGI is among the leading independent information technology and business process services firms in the world. Since 1976, U.S. defense, civilian and intelligence agencies have partnered with CGI to support their mission-essential needs at every stage of program, product and business lifecycle. Our key service areas include:

- Application management—day-to-day maintenance and improvement for business applications, helping reduce costs and ensure faster delivery of programs, projects and other initiatives.
- Business process management and services—subject matter and technology experts, engineers, analysts and other professionals to manage back-office processes to improve efficiency.
- Operational support services—provides resource, supply chain, maintenance and sustainment planning, biometrics, communications, training, management and support to federal clients, principally to U.S. military operations.
- Systems integration and consulting—design and implementation of business and technology solutions that solve business and mission challenges.
- Advanced engineering and technology services—delivers analysis, design, prototyping and engineering.
- Technology management—infrastructure management that adapts to mission and business requirements, including secure data center operations.
