

Section J

Appendix F

List of Applicable Laws, Regulations, and DOE Directives

In addition to the list of applicable directives referenced below, the Contractor shall also comply with supplementary directives (e.g., manuals), which are invoked by a Contractor Requirements Document (CRD) attached to a directive referenced below. This List excludes directives that have been granted an exemption from the CRD in whole or in part. For those Directives whereby the Contractor has been granted an exemption from the CRD, the Contractor shall comply only with the Operating Requirements identified in Appendix F-1. Directives identified in Appendix F-1 are for reference purposes only and are not inclusive of all of the Directives that will be incorporated into the contract.

DIRECTIVE NUMBER			DATE	DOE DIRECTIVE TITLE
DOE	O	130.1	9/29/1995	Budget Formulation

SECTION J Appendix F-1 – Operating Requirements January 26, 2011

The Contractor shall comply with the Operating Requirements listed herein. *The identified directives are listed for reference purposes only, i.e., only those provisions set forth herein constitute binding Operating Requirements.* The following referenced memorandum grants an exemption to the Directives:

Reference 1: Thomas P. D’Agostino (Administrator, NNSA) August 16, 2010 Memorandum for Patty Wagner (Manager, Sandia Site Office) and Stephen Mellington, (Manager, Nevada Site Office):
Subject: Strengthening Oversight Through Improving Contractor Requirements Documents in the National Nuclear Security Administration Management and Operating Contracts; Attachment: Contractor Requirements Document (CRD) Crosswalk Form

Reference 2: Thomas P. D’Agostino (Administrator, NNSA) December 9, 2010 Memorandum for Patty Wagner (Manager, Sandia Site Office) and Stephen Mellington, (Manager, Nevada Site Office);
Subject: Strengthening Oversight Through Improving Contractor Requirements documents in the National Nuclear Security Administration Management and Operating Contracts; Attachment: Contractor Requirements Document (CRD) Crosswalk Form

The contractor is responsible for flowing down requirements in Appendix C-1 and other contract requirements, when applicable, to ensure compliance with the terms and conditions of the prime contract.

LIST OF DOCUMENTS

The paragraph numbering under each heading below corresponds to the Contractor Requirements document (CRD) in the referenced directive for ease of traceability.

■ **Information Technology Management**

(Reference: DOE O 200.1A, Information Technology Management, Effective Date: 12/23/2008; Reference 2, NNSA Administrator’s December 9, 2010 Memorandum)

1. Information Technology Strategic Planning. Maintain a strategic plan that coordinates IT planning and investment decisions and links to the Departmental strategic plan.
2. Capital Planning and Investment Control. Develop, implement, and maintain a Capital Planning and Investment Control (CPIC) process.
 - a. Support Department-wide CPIC efforts.

3. Enterprise Architecture. Maintain an Enterprise Architecture for the life-cycle management of information resources and related IT investments funded by or operated for DOE.
4. Hardware and Software Acquisition.
 - b. Implement a Software Quality Assurance (SQA) program.
5. Ensure that information published to Federal service-to citizens public websites are accessible to the public and individuals with disabilities.

■ **DOE O 484.1 – Reimbursable Work for the Department of Homeland Security**

(Reference: DOE O 484.1, Reimbursable Work for the Department of Homeland Security, Effective Date: 8/17/2006; Reference 2, NNSA Administrator's December 9, 2010 Memorandum)

Establish, maintain and implement, through the contractor's management system, the assurance that all requirements applicable to reimbursable work for DHS are satisfied to include ensuring:

- DHS-funded work at a DOE national laboratory or site will be performed on an equal basis to other missions at the laboratory or site and not on a non-interference basis with other missions of such laboratory or site; and
- No added administrative or personnel charges in excess of those paid by DOE will be charged for DHS work.

■ **Pricing of Departmental Materials and Services**

(Reference: DOE O 522.1, Pricing of Departmental Materials and Services, Effective Date: 11/03/2004; Reference 2, NNSA Administrator's December 9, 2010 Memorandum)

1. When the site/facility management contractor conducts activities of providing non-DOE entities materials or services, which the Department is authorized by law to provide, the site/facility management contractor must charge the non-DOE entity the full cost of providing the materials or services. Full cost includes all site/facility management contractor direct costs incurred in performing work, all allocable costs incurred by the site/facility management contractor at any DOE/NNSA facility, and a Federal administrative charge of 3 percent of these costs. In no case will any depreciation or imputed interest charges be imposed on the non-DOE entity requesting the materials or services.

2. For cosponsored work, Cooperative Research and Development Agreements (CRADAs), and other technology transfer mechanisms, the site/facilities management contractor will assess a Federal administrative charge of 3 percent on all funds contributed by the sponsor, regardless of the level of Departmental participation in funding the work effort. In-kind contributions will not be subject to the Federal administrative charge.
3. The site/facility management contractor may provide an exception to the requirement to assess the 3 percent Federal administrative charge for reimbursable work performed for non-DOE entities as follows:
 - a. funds-in agreements with domestic entities: small business concerns, institutions of higher education, nonprofit entities, and State and local governments.
 - b. based on the current listing of blanket pricing exceptions provided by DOE to the contractor for work covering research, development, testing, evaluation, training, and exercises directly related to specified activities listed. If any of the blanket exceptions are canceled, DOE will provide the contractor with appropriate notification.
1. The following activities may become part of the contractor's responsibilities. These activities require special pricing consideration and, as applicable, DOE will provide the contractor with additional information for pricing the activity.
 - a. Information Dissemination Materials. DOE must comply with Office of Management and Budget (OMB) Circular A-130, Management of Federal Information Resources. The contractor will assist DOE in complying with Circular A-130. Circular A-130 requires DOE to set charges at a level sufficient to recover the cost of dissemination but no higher. Charges must exclude the cost of the original collection and processing of the information. Should an exception to this policy be warranted, DOE will provide additional guidance.
 - b. Byproduct Material. The contractor shall establish prices and charges for byproduct material sold, pursuant to Title 42 United States Code (U.S.C.) 2111 and 2112, at either the full cost recovery price or the commercial price, whichever is higher. Lower prices may be established if it is determined that such prices and charges will provide reasonable compensation to the Government, will not discourage the use of or the development of sources of supply independent of DOE, and will encourage research and development. Before establishing lower prices, the contractor shall obtain the approval of DOE.

- c. Other Materials and Services. The contractor shall establish prices and charges for materials and services sold, pursuant to 42 U.S.C. 2201(m), at either the full cost recovery price or the commercial price, whichever is higher. Lower prices and charges may be established if it is determined that such prices and charges would still provide reasonable compensation to the Government and would not discourage the development of supply sources independent of DOE. Before establishing lower prices, the contractor shall obtain the approval of DOE.
- d. Foreign Research Reactor Spent Nuclear Fuel Program. DOE will provide the contractor guidance on charging for this activity.
- e. Access Permits. The contractor shall not charge for access permits issued with the exception of those access permits which are charged in accordance with Title 10 Code of Federal Regulations (CFR) 725.
- f. Access Authorizations. The contractor shall not assess charges for access authorizations when authorization—
 - (1) is transferred from a study agreement to an access permit held by the same organization;
 - (2) is for an employee or staff member of an accredited, nonprofit educational institution having, at a minimum, a 2-year program of college level studies, and the work is related to the civilian application of nuclear energy;
 - (3) will not be considered one for which DOE has been paid, when the individual transfers to another organization; and
 - (4) is granted to obtain full and free competition.
- g. Use Permits. The contractor shall not assess a charge for preparing a permit which authorizes the use of DOE facilities or services. Charges for use of the facilities or services will be calculated separately.
- h. Assistance for the Protection of Health and Safety in the Event of Radiological Incidents. The contractor shall request guidance from DOE on charging for this activity.
- i. Museums and Exhibits. Unless there is specific authority to collect admission fees, the contractor will not charge visitors to DOE museums and exhibits for admission.
- j. Commercial Property Rental. DOE will provide the contractor guidance on charging for this activity.

- k. Use of Facilities. DOE will provide the contractor guidance on charging for this activity.
- l. Office of Science User Facilities. The contractor may make the Office of Science User Facilities available for research by a broad community of qualified users on the basis of programmatic interest, scientific merit of research proposals, technical feasibility, capability of the experimental group, and availability of the resources required. The contractor shall adhere to the following regarding charging users for use of the facilities.
- (1) Use of user facilities will be authorized at no charge for research which is of DOE programmatic interest and which is approved by laboratory management, usually with the advice of program advisory committees. Use free of charge will apply to experiments approved for conduct during periods in which the facility operates in normal mode for its primary purpose. The facility manager will determine which requests meet those criteria and report periodically to the appropriate DOE program manager.
 - (2) When facilities are made available for proprietary research, the user will be charged a fee that realizes full cost recovery (see definition in item 6b*, below).
 - (3) When facilities are operated for special circumstances, such as running the facility outside the normal operating mode or schedule, the user will be charged the incremental costs.
- m. Hazardous Materials Spill Center. The contractor will charge users of the facility only for direct and indirect costs for their experiments.
- (1) Invoices for materials and services will be prepared and issued promptly in accordance with the terms of the reimbursable work contracts or agreements.
 - (2) Work for others issues are covered in the work for others clause of this contract.
 - (3) Collections are covered under the payments and advances clause of this contract.

* *FOR INFORMATION PURPOSES ONLY*. [6.b. Full Cost. All direct and all indirect costs, including general and administrative expenses, incurred at any Departmental contractor facility by the site/facility management contractors in performing work on behalf of non-DOE entities, and a Federal administrative charge of 3 percent of these costs.]
