Esri Data & Maps

Overview

Data & Maps content is preconfigured to work with ArcGIS products and provided at **no additional cost** for ArcGIS users.

[Data & Maps](#)—DVD containing ready-to-use basemaps and thematic map documents at many scales of geography.

[Data & Maps for ArcGIS Server](#)—Map cache services optimized for publishing with ArcGIS Server in 2D and 3D.

[Supplemental World Imagery](#)—DVD set containing three additional imagery data sets.

With the release of ArcGIS 10, Data & Maps and Data & Maps for ArcGIS Server are now available for download or on DVD as part of the ArcGIS electronic software delivery (ESD) through the [Customer Care Portal](#).
