Y-12 SITE OFFICE RECOGNIZED FOR CONTRIBUTIONS TO COMBINED FEDERAL CAMPAIGN

Oak Ridge, Tenn. - Employees of the National Nuclear Security Administration's Y-12 Site Office have been recognized for their contributions to the recent Combined Federal Campaign.

The Y-12 Site Office (YSO) was recognized as the top agency per capita for the Fall 2005 campaign in Oak Ridge. YSO also received second place in the percentage of participation among area federal agencies.

Approximately \$100,000 was raised during recent campaign held by employees of YSO, the Department of Energy's Oak Ridge Operations, Office of Scientific and Technical Information, and Office of Inspector General and the National Oceanic and Atmospheric Administration's Atmospheric Turbulence and Diffusion Division.

The Combined Federal Campaign (CFC) is one of the world's largest and most successful annual workplace giving campaigns. Each year, donations by Federal civilian, postal and military donors help to raise millions of dollars to support eligible non-profit organizations that provide health and human service benefits throughout the world.

YSO's Susan Morris and Robin Spradlen served as the co-chairpersons for this year's campaign. Both Morris and Spradlen were recognized as being among the top CFC workers in the campaign held this past fall.

The mission of the NNSA's Y-12 Site Office is to ensure the safe, secure and cost-effective operation of the Y-12 National Security Complex -- a unique manufacturing facility that plays a key role in the United States Nuclear Weapons Complex. YSO employees perform program oversight, contract management and evaluation to meet national security missions, while ensuring the health and safety of employees and the public.
